Report Trouble To No. 500

Always call by Number—Not by Name.

TO OUR SUBSCRIBERS

It is the purpose of the management of the Carolina Telephone and Telegraph Company to furnish efficient telephone service at reasonable rates, which will meet the requirements of its patrons. This purpose is not merely patriotic, but is based upon the belief that to be permanently successful the Company must serve the public efficiently.

The Company requests any subscriber to notify it whenever anything goes wrong with the service, or whenever any of its methods appear objectionable. It stands ready and anxious in the first case to promptly locate and remedy any trouble, and in the latter case to adopt any suggestions which may be of advantage in handling the business, or to explain courteously any of the methods about which complaint may be made.

Every subscriber is not only invited but is urged to visit the Central Office and take a look at the Exchange in active operation. The manager will be pleased to show anyone the plant and explain its operation to him.

TOLL MESSAGES

ARE STRICTLY CASH

**Operators Are Not Allowed To Charge The Same Except
To Subscribers**

Three minutes constitute One Toll over the lines of the Long Distance Company, and an additional charge is made for each additional minute or fraction thereof.

If a messenger is sent for a party the messenger fee must be paid whether the party is found or not. The messenger cannot guarantee to find the person wanted, but must be paid if service has been rendered.

This Company does not transmit written or verbal messages, and all Employees of the Company are forbidden to accept written or verbal messages or communications for delivery over the lines of this or any other Company.

This Company only provides the means and facilities for enabling its patrons to converse with each other and does not receive or transmit messages.

Toll Rates are subject to change without notice.

Instructions and Important Suggestions

LOCAL SERVICE

The term "BUSY", when employed by an operator in answer to your call, does not mean, as is supposed by some subscribers, that the OPERATOR is busy, but means that the LINE called for by you is busy.

ALWAYS CALL BY NUMBER—NOT BY NAME

In making a telephone call, always call by number, not by name. Each digit should be said as clearly as possible and should be pronounced as nearly as possible according to the following examples:

- "0" to be spoken as "OH"—with a long O.
- "1" to be spoken as "WUN"—with a strong N
- "2" to be spoken as "TOO"—with a long T and long OO
- "3" to be spoken as "TH-R-R-EE"—with a slightly rolling R and long E
- "4" to be spoken as "FOER"—one syllable, with a long O
- "5" to be spoken as "FIVE"—with a long I and strong V
- "6" to be spoken as "SIX"—with a strong X
- "7" to be spoken as "SEV-EN"—two syllables
- "8" to be spoken as "ATE"—with a long A and strong T
- "9" to be spoken as "NIEN"—one syllable, with a strong N on the end.

LOOK IN THE DIRECTORY FOR THE NUMBER of the person to whom you wish to talk, and signal the operator in the usual way. Keep only the latest issue of the directory.

WHEN THE OPERATOR REPLIES by saying "Number please?" give your order slowly and distinctly, pronouncing the number by digits. For example: "Seven-Four-Six." This will avert misunderstandings.

WHEN THE OPERATOR REPEATS be sure she has received the order correctly. If the desired line is in use the operator will report, "The Line is Busy."

IF THE PERSON YOU ARE CALLING FAILS TO ANSWER WITHIN A REASONABLE TIME or if you wish to attract the operator's attention at any time during a connection, move the hook up and down SLOWLY three or four times.

DO NOT MOVE THE HOOK RAPIDLY, as a rapid movement does not give any signal.

ANSWER YOUR TELEPHONE PROMPTLY, otherwise the calling party may tire of waiting and hang up. When holding a line, never replace the receiver on the hook, as this will give the operator the disconnect signal.

WHEN YOUR TELEPHONE BELL RINGS do not remove the receiver from the hook until the bell stops ringing. This is particularly important if you are on a duplex or party line.

CALL "INFORMATION" when you wish to know a new telephone number not listed in the directory. Operators can only give you the number requested. They are required to be courteous and considerate under all circumstances. We bespeak for them the same consideration on your part.

CASES OF TROUBLE OR UNSATISFACTORY SERVICE should be promptly reported to "INFORMATION." These reports will receive prompt and efficient attention. We are striving to render a perfect service and suggestions or criticisms are welcomed.

LONG DISTANCE SERVICE

TO MAKE A LONG DISTANCE CALL signal the operator in the usual manner and ask for "Long Distance." The following example shows the proper manner in which to give the call to the Long Distance operator: "This is Three-Two-Six, Mr. Jones, calling Mr. Smith, Eight-Seven-Six, Washington, N. C." The operator will call you when she gets your party.

If the party called has no telephone, the long distance operator will, upon request, and at the risk and cost to the subscriber, endeavor to secure a messenger to send to the party called and ask him to come to a pay station. The charge for this messenger service must be paid by the subscriber, in addition to the regular toll charges, regardless of whether or not the person sent for responds to the messenger's request.

APPOINTMENTS TO TALK AT SOME PARTICULAR HOUR may be made at a small additional charge. To make an appointment call, tell the Long Distance operator you wish to talk at a certain hour.

TOLL MESSAGES MAY BE SENT COLLECT, by telling the Long Distance operator that you wish the toll charged to the telephone you are calling. The operator will ascertain if the called party is willing to accept the charge, and if so will give you the connection.

DIRECTORY ADVERTISEMENT

Every business man today is seeking to reach more prospects, secure additional business, increase prestige and good will.

These explorers are investigating the field of advertising with greater thoroughness than ever before. They realize the necessity for effectively keeping their names and business before the largest possible group of logical buyers at a reasonable cost.

And they are advertising in the Telephone Directory because of its increasing circulation, frequent consultation, and the reasonable rates.

Find out how Telephone Directory Advertising can help your business.

Our local manager will give you any information regarding rates, dates of publication, etc., that you may desire.

GENERAL SUGGESTIONS

DIRECTORY LISTINGS OR OMISSIONS. It is desired that all subscribers shall be properly listed in the directory. Errors or omissions should be promptly reported to the Manager. The Company assumes no liability whatever for damages accruing from such errors.

UNAUTHORIZED USE OF THE TELEPHONE. The use of a subscriber's telephone is limited to the subscriber, his family or employee in his interest. Subscribers have no right to allow its use by other parties. The telephone may be removed if this condition of the contract is disregarded. Subscribers are requested to

refer those desiring the use of the telephone to the nearest PAY STATION.

ATTACHMENTS TO TELEPHONES. Difficulties with the service experienced by some subscribers are due to the use of unauthorized mouth-pieces, ear cushions, so-called sanitary devices, and other such attachments. Every necessary appliance has been furnished by the Company, and if you have a real need we can supply it. Subscribers are earnestly requested to refrain from the use of other apparatus.

TEN DAYS' NOTICE TO MOVE A TELEPHONE. Subscribers wishing the telephone moved from one location to another are requested to give ten days' notice in writing. A nominal charge will be made for moving a telephone or changing the wiring to partially offset the cost of material and labor.

REPORT TROUBLE TO No. 500

TELEPHONE RENTS are due the first of each month and must be paid at the Company's office on or before the 15th of each month or service will be suspended without further notice.

WHEN YOU TELEPHONE, USE "THE VOICE WITH A SMILE"

Answer your telephone by giving your name or telephone number. It is more courteous and will help your SERVICE.

OFFICIAL TELEPHONE DIRECTORY

LaGrange Exchange

—Of The—

CAROLINA TELEPHONE & TELEGRAPH COMPANY

General Instructions How to Use The Automatic Telephone

Consult the latest issue of the Directory and obtain the number to be called. Remove the receiver from the hook, place your finger in the hole containing the first figure of the number to be called and pull dial as far as it will go (or to the finger stop); then remove your finger and let the dial go back. Repeat this operation for each figure in the number wanted.

EXAMPLE:

Suppose the number to be called is 350. Remove the receiver from the hook, place your finger in the hole marked "3," pull the dial around to the finger stop and let go. When the dial comes to rest, place your finger in the hole marked "5" and operate as before, when the dial comes to rest again, place your finger in the hole marked "0" and operate as before. Put your receiver to your ear and wait for the called party to answer. Before your party answers you will at intervals hear a "burr-r-ing" sound indicating that the bell is being rung at number 350.

"BUSY SIGNAL"

After having dialed the last figure of the number called you hear a sharp, spasmodic "buzz-

buzz." This is the busy signal, and indicates that the number called is busy. Hang your receiver up and call again later. If you do not know the busy signal it is easy for you to familiarize yourself by dialing your own number which will give you the busy signal.

HOW TO CALL THE OTHER TELEPHONE ON YOUR OWN LINE.

To call the other subscriber on your own line remove the receiver from the hook and dial No. 8; hang your receiver back on the hook and wait for your bell to ring. When your bell stops ringing the called party has answered; take off your receiver and talk. To stop your bell from ringing, in case the called party does not answer, lift your receiver for several seconds and place back on hook.

HOW TO MAKE A SECOND CALL

Should you wish to make a second call; or should you by accident fail to pull each figure to the finger stop in making a call, or make any other mistake, disconnect by replacing the receiver on the hook for several seconds, then remove the receiver and proceed as with a new call.

**HOW TO DIAL A RURAL SUBSCRIBER
 ON YOUR OWN LINE.**

To call a subscriber on your own line, that is any subscriber having the first three figures the same as yours, dial No. 9, then the subscriber's code number, which is the last two figures of a subscriber's telephone number; hang up your receiver, then your bell and called party's bell will ring. When called party answers your bell will stop ringing, then remove your receiver and talk. If called party does not answer, remove receiver from hook and again hang up receiver to disconnect and stop ringing.

EXAMPLE:

Subscriber on rural line No. 511-12 wishing to call another subscriber on line No. 511-15, he will in the regular way remove his receiver and after 'listening in' to ascertain that line is not in use, dials No. 9, then the last two figures of the subscriber's telephone number wanted.

TO CALL LONG DISTANCE.

Dial No. 0 and the Kinston operator will answer you. Give her your name and telephone number and the details of the call in the usual manner.

TO CALL INFORMATION DIAL No. 0.

Call this number to obtain the numbers of subscribers whose names do not appear in the

latest directory. Give the name and the address of the person desired.

**TO REPORT TROUBLE WITH YOUR
 TELEPHONE DIAL No. 0**

Call this number to report any trouble with your telephone, using another telephone if necessary. Explain as clearly as possible what your trouble is; this will aid in having it promptly corrected.

A FEW DON'TS:

DON'T force the dial back, let it run back itself.

DON'T jiggle the receiver hook, if you do you will get the wrong number.

DON'T try to dial with the receiver on the hook, if you do you will not get a connection.

DON'T retard the dial as it revolves back, it will result in failure to obtain the number you are calling.

DON'T shout into your telephone, hold the lips close to the transmitter and speak into it in your natural tone of voice. This gives the best results.

LONG DISTANCE RATES FROM KINSTON, N. C.

The rates quoted below show the application of the different classes of telephone toll message service to some nearby and long distant points most frequently called. Rates to over 70,000 other points may be obtained by asking for "Long Distance Operator."

To make a long distance call, call the local operator in the regular way and ask for "Long Distance." When the long distance operator answers give her the name of town or city desired. If you wish to file a Person-to-Person call, give the operator the name of the particular person wanted; in either case, furnish the telephone number desired (if known), otherwise give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address. Then give the number of the telephone from which you are calling and your name.

The rates given below are for the initial period. The report charges apply only to person-to-person, appointment and messenger calls which are not completed. Evening and night rates apply only to station-to-station calls.
